DISCLOSER / DISCLAIMER: Powder coating items must withstand a 400-degree cure temperature. You must remove all gaskets, seals, any plastic, etc. Extra charges will apply for parts in need of dismantling and/or assembly. Media blasting is available to remove old paint and finishes and is included in the above price. PURCHASER expressly acknowledges the existence of the pre-existing damage to parts described above and releases Tennessee Valley Coatings, LLC from any liability or loss in connection with such damage, including an exacerbation of the described damage. Cast aluminum and magnesium parts may experience out-gassing and /or bubbling in the powder coated finish. Tennessee Valley Coatings, LLC will take every precaution to avoid out-gassing, however Tennessee Valley Coatings, LLC cannot be held responsible for bubbling caused by porous substrates. Tennessee Valley Coatings, LLC does everything in their power to get you items prepared and coated in a timely fashion. Due to having many customers, we have found it easier for both the customer and Tennessee Valley Coatings, LLC to use the FIFO (First in First out) method. Turnaround time's change daily and we do our best to represent an accurate time frame. Tennessee Valley Coatings, LLC is not responsible for any items that are damaged during the powder coating process. Customer is responsible for all interior and exterior cleaning prior to placing items back into use. After completion, an item not picked up within 30 days will incur a weekly storage fee. Items not picked up within 180 - days becomes the property of Tennessee Valley Coatings, LLC. There is a 50% charge for RUSH jobs!
